DETAILED ACTION

1. This Office Action is in response to the Amendment filed 9/25/08. Claims 1-11, 14, and 20-30 have been cancelled. Claims 12, 13, 15-19, and 31-42 are currently pending in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 12, 13, 15-19, and 31-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 12, 19, 33, 34, and 41, each of these claims contains the newly added limitation "starting at the current particular path said identified from the random index". It is unclear what exactly is meant by the term "said identified". This appears to be a typo. It is recommended that this limitation be changed to state "starting at the current particular path identified from said random index", in each of these claims such that the claim language is clear.

Claims 13, 15-18, 31, 32, 35-40, and 42 are rejected since they each depend on a rejected base claim.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 41 and 42 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

More specifically, claims 41 and 42 are directed towards "logic". Logic does not fall under one of the accepted statutory categories of invention. It is recommended that these claims be amended such that the "tangible media" is being claimed rather than the "logic". For example the claims could be changed to state "One or more tangible media encoded with logic for execution...".

Allowable Subject Matter

5. Claims 12, 19, 33, and 34 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claims 13, 15-18, 31, 32, and 35-40 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments, see the Amendment, filed 9/25/08, with respect to claims 12, 13, 15-19, and 31-42 have been fully considered and are persuasive. The rejections under 35 U.S.C. 103(a) of claims 12, 13, 15-19, and 31-42 have been withdrawn.
